EDUCATION

Maulana Azad National Institute of Technology, Bhopal **2026 – 2028**
M.Tech in Advanced Computing *Ongoing*

Unitedworld Institute of Technology, Karnavati University **July 2022 – June 2026**
B.Tech in Computer Science and Engineering (AI/ML) *CGPA: 8.72*

CBSE, Delhi Public School, Gandhinagar **2020 – 2022**
12th Grade *88%*

CBSE, Delhi Public School, Rajkot **Up to 2020**
10th Grade *90.2%*

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL, JavaScript, R, PHP

Web Development: HTML, CSS, React.js, MERN Stack, Node.js, Express.js, MongoDB

App Development: React Native, Flutter

Tools: Git, GitHub, Firebase, Prismic, WordPress, Shopify, Postman

Others: REST APIs, Machine Learning, TensorFlow, DBMS, Context API, AsyncStorage

EXPERIENCE

Full Stack Development Intern – Logion Solutions **Feb 16, 2026 – May 16, 2026**

- Developed and enhanced live web applications using Nuxt.js, Tailwind CSS, WordPress, JavaScript, and REST APIs, focusing on responsive UI and production-ready features.
- Built CRM modules including invoice generation, quotations, reporting, user management, KOT, delivery, product duplication, and automated email notifications.
- Integrated third-party services including Razorpay, CCAvenue, WhatsApp/Notifino, WebSockets, and real-time notification systems across business applications.
- Developed features for IPI Connect mobile app, including bulk lead upload, delivery-driver integration, booking workflows, and authentication; deployed the app to Google Play Store and Apple App Store.

Web Dev Intern – Logion Solutions **June 2024 – Aug 2024**

- Built and maintained websites using Nuxt.js, React Native, and WordPress for client projects.
- Contributed to Viral Sales, Carecay, Law Suit, and Daily Nudge; developed a Metal Rates React Native app.

Freelance Web Developer **Ongoing**

- Developed and maintained client websites using WordPress and Shopify, including beodd.co and greensapio.com.
- Handled website customization, responsive UI development, performance improvements, and integrations.

PROJECTS

SafeRoute **2025 – 2026**
Multi-Factor Risk-Minimization Framework for Personal Safety and Navigation
Tech: Flutter, NodeJS, MongoDB, Python, Machine Learning, XGBoost, LSTM, GeoHash, IoT

- Developed a multi-factor safety scoring framework combining heterogeneous urban safety indicators.
- Designed risk-aware route optimization using spatial discretization and multi-objective routing.
- Proposed an IoT-based redundant SOS mechanism for emergency response.

WastelessBites **2024**
Food Waste Management System with Inventory, Donation and Recipe AI
Tech: React Native, MERN, ANN

- Developed a mobile application for food inventory and expiry tracking.
- Implemented AI-based recipe suggestions using available user inventory.
- Designed a food donation system connecting users with NGOs.

AriaRo Website **2025**

Website for National Technical Symposium, UIT, Karnavati University

Tech: MERN Stack (MongoDB, Express.js, React, Node.js)

- Built the official website for a large university technical and cultural festival.
- Developed event schedules, speaker profiles, announcements, and registration workflows.
- Integrated Lu.ma for event registration and focused on an interactive attendee experience.
